

## The Maritime Consultants

### Marine New Build / Refit / Conversion

The new building process is separated into four phases of which the detailed areas that we take care of for our clients are listed overleaf. Our company has handled some significant new build, refit and conversion projects for our client base worldwide, often acting as the client's representative at the shipyard throughout the duration of the construction contract. We are synonymous with trust and reliability, consistently able to guide the client through times of high tension and anxiety providing the correct advice that ultimately saves time and cost.
